US POLITICS AND POLICY

Christmas 2016

Feeling festive at Christmas typically packs a punch to the wallet; across Europe 10% of people even went into debt during the season in 2015. In the 2016 survey, ING asked 13,576 people across Europe, the USA and Australia about their Christmas budgets and finances - confirming that many feel the holiday has become too focused on money.

Executive summary

- The Bank of England's move to a "neutral" stance on the path of policy
- Inflation on the back of higher import and energy prices
- Key events to look out for in 2017
- Still fairly low rate by historical standards
