

Economics Live: China's Great Transition and what it means for metals demand

In this live webinar, we'll discuss the current headwinds facing China's economy as well as the major trends shaping its long-term growth potential. [Sign-up now](#)

China's economy is undergoing a major transition towards "high-quality growth", with a focus on unlocking "new productive forces", including clean energy and high-tech manufacturing. In this live webinar, we'll discuss the current headwinds facing China's economy as well as the major trends shaping its long-term growth potential.

We'll ask what it all means for metals demand and what the main opportunities are for investors. [Click here to register](#)
