China - Liberalizing the CNY

The PBoC's resets counter-cyclical factor in the CNY fixing mechanism to zero signals return to liberalization of the exchange rate mechanism.

[PBOC relinquishes some control](#)

Korea - Improved labor market conditions in December

The BoK remains on course of tightening this year with our forecast of two 25bp policy rate hikes in the second and fourth quarters.

Philippines - Persistent wide trade deficit

November trade data is likely to reinforce vulnerability of the PHP to weakness in the external payments position.
