### ✓ Poland: Expect strong second round inflation shocks

The Polish Statistical Office is expected to confirm its flash estimate of May CPI inflation at 13.9% year-on-year and provide details of its composition on Wednesday. On Friday, the National Bank of Poland will publish measures of core inflation. We estimate that core inflation, excluding food and energy prices, went up by 8.6% year-on-year from 7.7% YoY in April, maintaining strong momentum. Second-round effects are strong. Businesses face no demand barriers and are passing higher costs on to output prices.

## EMEA Economic Calendar

Country	Time	Data/event	ING	Survey	Prev.
<b>Monday 13 June</b>
