

## Trump, tariffs and jobs: Good news, but will it last?

Jobs growth in US companies 'protected' by the tariffs that President Trump recently introduced, is above average. But this isn't down to the result of the promised 'industrial revolution' and may not last, argues ING's Raoul Leering. Read our full report [here](#)

### Watch: The effects of Trump's tariffs on US jobs

ING's Head of International Trade Analysis, Raoul Leering, looks at the effect of President Trump's tariffs on manufacturing employment in America.
