

WATCH: China's chief weapon is surprise

China's unexpected move to impose tariffs on more US goods rocked markets and hit a nerve with US President Donald Trump. Greater China economist Iris Pang says this element of surprise could be an important tool for China as the trade war escalates

China's chief weapon is surprise

After a recent escalation in the US-China trade war, we take a look at what's likely to happen next- and why the yuan will play a key role
