

## Listen: Why the Great Oil Crash may not be over

US oil prices have recovered some ground after tanking this week to historic lows. But the outlook for crude still looks bleak. [In this podcast](#), ING's Head of Commodities Strategy Warren Patterson explains why prices could turn negative again next month

### Too much oil and nowhere to put it

Shuttered factories and grounded aeroplanes have sapped demand for oil around the world, and producers have been slow to react. With too much oil and nowhere to store it, prices have collapsed. [In this podcast](#), [ING's Head of Commodities Strategy Warren Patterson](#) tells Senior Editor Rebecca Byrne what to expect now.
