

## BriefING Romania

Good September 2031 auction

### ➔ EUR/RON

Quite a calm session for the EUR/RON yesterday. The pair traded virtually flat around 4.6630 and we don't expect major changes of the current calm stance.

### ➔ Government bonds

The September 2031 bond auction went out pretty well, though the Ministry of Finance had to pay somewhat higher-than-expected yields in order to raise the RON200 million planned amount. In the end, the target size was allocated at a 5.46% average and 5.48% maximum yield, with a total bid-to-cover of 1.53x. The ROMGBs curve closed the day little changed.

## ➔ Money Market

It was a calm market on funding as well, with the entire curve now ranging from 3.00% to 4.00%. The money market is likely to remain calm ahead of Monday's announcement for a possible repo.
