

# Briefing Romania

Funding rates remain above Lombard

## ➔ EUR/RON

The EUR/RON traded quite narrowly around 4.7600 for most of yesterday's trading session and tested higher in the after-hours. We expect the upside pressure to persist today and look for a 4.7550-4.7650 range.

## ↓ Government bonds

A relatively quiet day for Romanian government bonds, with most of the action concentrated in the recently issued Eurobonds. We expect the auction calendar for April-2019 to be released today and see some positioning on this news.

## ➔ Money Market

As expected, the downward move in cash rates has paused ahead of the 3.50% Lombard rate and somewhat surprisingly, cash rates even inched 15-20 basis points higher yesterday. The curve is remarkably flat again, all tenors are trading within some 25 basis points, between 3.75% and 4.00%.
