# The global economy is cooking but the kitchen's in chaos!

The world's economy is not unlike an episode of the hit US drama, *The Bear*. There's chaos in the kitchen, but we still manage to serve a dish worth eating. So what's on the menu for 2026? More of the same or a little more spice?

ING's Carsten Brzeski presents his take on what to expect next year - his three dishes in fact.

Carsten Brzeski channels *The Bear* in our global outlook for 2026. What's on the menu for next year... and are you tempted by anything on it?

Check out his short video below.
